SKU	<b>SXAE 0826-01</b>

## DIRECTIONS FOR USE

- Never spray the product on a hot engine
- Shake the can vigorously before and during application.
- Hold the can 6 to 8 inches from the surface coating for spraying.
- Spray the product onto the dirty surface and wait for the penetration and the flow of oil, grease, and dirt.
- Repeat the process several times in very dirty and oily areas.
- After the dirt on the surface, you can wash the engine or can wipe the engine with a dry and clean cloth to have a clean and glossy finish.

## LIMITATIONS

- Do not apply on hot or working engine.
- Do not apply near open fire and fire sources and never smoke while using.
- Ensure adequate ventilation in the environment.
- Safety labels should be carefully read as without adequate ventilation there is a risk of chemical mixture building up in the air that can blow up.
- The product must be stored in a cool and dry environment away from direct sunlight.

## SAFETY

Ensure that the workstation has good ventilation to minimize exposure to fumes. Wear appropriate personal protective equipment, such as gloves and eye protection, when using the cleaner. Avoid eating, drinking, or smoking while using the product. Always wash hands thoroughly after handling the cleaner. Store the product in a well-ventilated place and away from heat sources. Follow the MSDS guidelines for proper disposal and refer to the provided safety information for further details. Keep the product out of reach of children.
